AAP and Pfizer now offer special contract pricing on vaccines available through Cardinal Health. In addition to the Pfizer contract discounts, Cardinal Health will apply qualified wholesale acquisition cost (WAC) discounts for AAP Members to achieve a “stacked” total WAC discount per brand. This contract pricing is available to *AAP Members only*. *

*If AAP as an organization achieves certain performance metrics on Covid (Comirnaty), RSV (Abrysvo) and Pneumococcal (Prevnar 20) vaccines, all participating pharmacies will receive an additional 3% rebate on net purchases for those categories of products, awarded after the contract participation year (July 1, 2024, through June 30, 2025) is complete.
